D/C

Note.

Subject: Postwar industrial Development training of higher technical personnel in abroad.

++++

Proposals for selection of candidates to be deputed to U.S.A. and U.K. for training were called for from the Convener, Board of Management for Industrial Concerns on 20-2-1945 and his reply is awaited. He was reminded by phone today.

Copy attached

According to the Residency letter No.R.F.391/43.Pol dated the 23rd February 1945, list of candidates had to be sent in the prescribed form by the 28th February in respect of candidates for U.S.A. and 10th March in respect of U.K.

As the selection had to be done with great care and there was not sufficient time to select the names in consultation with the Board of Management for Industrial Concerns, a wire is proposed to be sent to the Joint Secretary, Department of Labour, Government of India to extend the time till end of March and a reply is also proposed to be sent to the Residency accordingly.

OFFICE OF THE MINISTER FOR PUBLIC WORKS
31 MAR 1945
No. 7283

Final Note by the Minister for Public Works.

Subject.—
Postwar industrial development - Training abroad of higher technical personnel.

68

The Secretary to the Hon'ble the Resident forwarded a copy of the scheme of the Government of India regarding the training of higher technical personnel in the United Kingdom and the United States of America and desired to know whether this Government would be willing to join in the scheme.

69 It was considered necessary to take advantage of the offer and accordingly the heads of departments concerned were asked to send their recommendations through the Board of Management of Industrial Concerns.

70 In the meanwhile, the Residency wanted the recommendations of this Government to be sent immediately as the recommendation for the first batch of trainees for the United States of America should reach the Government of India before the end of February, 1945 and those for the United Kingdom by the 10th March, 1945. Hence instructions were issued to the Convener, Board of Management for Industrial Concerns, to arrange for a meeting of all the Directors of Industrial Concerns and the General Manager, Mysore Iron and Steel Works and send up urgently a list of eligible officers in Government or State aided industrial concerns and also deserving private candidates who had applied. The Board with the General Manager, Mysore Iron & Steel Works, interviewed 34 candidates in the very short time at its disposal and recommended 16 of them. Of these the marginally noted 12 candidates who were graduates were approved and their applications were forwarded to the Residency, with the concurrence of the Dewan.

**

1)	Mr. Mohamed Ali	Mysore Iron &
2)	" H.Srinivasasastry	Steel Works.
3)	" V. Srinivasarao	Govt.Electric Factory.
4)	" S.M.Hayath	Lac & Paint Works.
5)	" B.M.Kannabiran	Industrial & Testing Laboratory.
6)	" M.B.Ramachandra Rao	Geological Department.
7)	" Mohamed Hafeez	
8)	" B.G.Dasegowda	Mysore Sugar
9)	" K.Lakkappa	Company.
10)	" M.L.Narasimhamurthy	Mysore Paper Mills.
11)	" S.Lakshmipathysastry	Private candidates.
12)	" B.P.Masarenhas	

The Residency were also intimated that Government would be prepared to depute this time 8 of the above 12 candidates, whom the Government of India might consider suitable for training. The final selection by the Government of India is still awaited.

Meanwhile certain textile mills are also being consulted if they wish to depute any candidates and certain applications from private candidates are also being considered, so that if there is still time, some more applications might be forwarded, so as to take the fullest advantage of the scheme.

The cost of the trainees who are working in the Government Industrial Concerns or departments is proposed to be met by Government and in respect of others the cost in each case will be met by the Company concerned or the individual himself as the case may be. It is only on receipt of the final reply of the Government of India that a definite decision in the matter will be taken.

The papers are submitted for the gracious perusal of His Highness.

J. M. Lucas.

[To be used only for notes, requisitions, etc., not intended for permanent record.]

Letter No. R.7.391/43-Pol dated 21/6/43 from the Residency intimating the final selection of Candidates for Technical training in U.K.

1) The applications of the marginally*noted 14 candidates had been forwarded to the Govt.of India, in two instalments -(once on the 10th March and another time on the 12th April). Among these the Government of India have selected 8 candidates as per details in the p.u.d.

*

1) Mr.Md.Ali,(M.I.S.W.)
2) " H.Srinivasasastry (M.I.S.W.) ---- Selected.
3) " V.Srinivasarao (G.E.Factory) ---- Selected.
4) " S.M.Hayath (Lac & Paint Works) ---- Selected.
5) " B.M.Kannabiraman(I.T.L.)
6) " M.B.Ramachandrarao (Geo.Deptt) ---- Selected.
7) " Md.Hafeez (Sugar Co.)
8) " B.G.Dasegowda (Sugar Co.) ---- Selected.
9) " K.Lakappa (Sugar Co.,) ---- Selected.
10) " M.L.Narasimhamurthy(Paper Mills)
11) " S.Laximipathy (Private) ---- Selected.
12) " B.P.Mascarenhas(Private) ---- Selected.
13) " G.Krishnaswami Rao(Private)
14) " S.G.Kasyapi (Glass & Enamels)

It is not clear whether the last ~~xx~~ two applications forwarded to the Government of India through the Residency on the 12th April have been taken into consideration in the above selection. It is for consideration whether this may be got clarified. The main file relating to this subject - D.No.7553 - has been put up with the L.C. question on the above subject and the file has ~~already~~ been sent to the office of the Minister, P.W. & I for reference at the meeting. D.No. 6725

2) If approved, the final selection (made by the Govt.of India) will be intimated to the Board of Management for Industrial Concerns with instructions to give necessary intimation to the candidates through the Industrial Concern in which they are working. Among the candidates not selected the cost or ~~expend~~ expenditure involved in this connection in respect of four candidates (items 2, 3,4, & 6) will have to be borne by Government, as these candidates are working in Government institutions. The Convener, B.M.I.C. may also be asked to submit proposals in respect of the ~~above~~

Final Note by the Minister for Public Works.

Subject.— Post-war industrial development - training abroad of higher technical personnel.

The gracious reference of His Highness is invited to the Final Note of the then Minister for Public Works and Industries, dated 3rd April 1945 in the matter of training abroad of higher technial personnel.

During the circulation of these papers among the Ministers for the perusal of the orders, the Minister for Revenue and Law and the then Minister for Local-self-Government and Public Health have minuted as follows:-

The Minister for Revenue & Law:-

"I think this should have been treated as a Council case. The method of selection is not clear."

The then Minister for Local-self-Government & Public Health:-

"This should have been treated as a Council matter. From the list I feel the selection could have been based on broader and fair basis instead of allowing representation to a few already represented communities."

The Minister for Public Works and Industries has recorded that the reasons for not treating the matter as a Council case are indicated in his Final Note dated 3rd April 1945.

In addition to the 12 candidates mentioned in the Final Note referred to above, the applications from two more candidates, viz., Messrs. (1) Krishnaswami Rao (Hindustan Aircraft, Ltd.) and (2) S.G. Kasyapi (Glass and Enamels) were also forwarded to the Residency.

Intimation has now been received from the Residency that the marginally-noted* 8 candidates have been selected by the Selection Committee of the Government of India. The

GOVERNMENT OF INDIA

DEPARTMENT OF LABOUR

No. TRC-II—1140.

New Delhi, the 12th December 1944.

FROM

S. LALL, ESQUIRE, C.I.E., I.C.S.,

Joint Secretary to the Government of India.

To

ALL PROVINCIAL GOVERNMENTS AND ADMINISTRATIONS.

SUBJECT :—*Training abroad of higher technical personnel for post-war industrial development.*

SIR,

I am directed to forward a copy of a letter addressed by the Government of India to all Chambers of Commerce, Employers' Associations, etc., on the question of training abroad of higher technical personnel for post-war industrial development. The Provincial Govt. may desire to send their own technicians for higher training abroad in connection with their normal or post-war schemes and, if so, the Government of India would be glad to arrange the necessary facilities, but the full costs of such training will be borne by the Provincial Government. I am to request that if the Provincial Government have any technicians whom they would wish to send for higher training abroad, their names and other particulars may kindly be communicated as early as possible to this Department in the form attached to the enclosed letter.

I have the honour to be,

Sir,

Your most obedient servant,

S. LALL,

Joint Secretary to the Government of India.

Copy to all Departments of the Govt. of India (except Legislative, Legislative Assembly, Commonwealth Relations and Military Finance Departments) with the request that if they have any technicians requiring training of the kind referred to in the above letter the necessary particulars may kindly be sent to this Department as early as possible.

Copy to the Political Department (with a copy of the letter addressed to Chambers of Commerce, etc.) with the request that the scheme of higher training referred to therein may be communicated to all Indian States and the recommendations of the States regarding suitable technicians may kindly be obtained in the form attached to the enclosed letter and transmitted to this Department. It may please be pointed out to the States that the cost of higher training will be borne by them in full.

N. C. KUPPUSWAMI,

Assistant Secretary to the Government of India.

GOVERNMENT OF INDIA

DEPARTMENT OF LABOUR

No. TRC-II--1140.

FROM

S. LALL, ESQUIRE, C.I.E., I.C.S.,

Joint Secretary to the Government of India.

To

(i) THE EMPLOYERS' FEDERATION OF INDIA, BOMBAY.

(ii) ALL-INDIA ORGANISATION OF INDUSTRIAL EMPLOYERS, NEW DELHI

(iii) INDIAN ENGINEERING ASSOCIATION, CALCUTTA.

(iv) ENGINEERING ASSOCIATION OF INDIA, CALCUTTA.

(v) ALL CHAMBERS OF COMMERCE.

(vi) ALL-INDIA MANUFACTURERS' ASSOCIATION, BOMBAY.

SUBJECT :—*Training abroad of higher technical personnel for post-war industrial development.*

SIR,

I am directed to address you on the action which the Government of India propose to take to make good the serious deficiency in skilled technicians particularly of the higher categories, which will constitute one of the most serious bottlenecks in the industrial development of the country. India will need, for example, large numbers of chemical engineers, mineralogists, electrical and other technicians including those who can design and build machine tools of various kinds. For these higher technical posts the training for the present will inevitably have to be abroad. Steps will have to be taken to ensure that our technicians on their return to India will be capable of developing, planning, organising various branches of industry according to the needs of the programme of future industrial development.

2. With a view to ascertaining the actual requirements of industry certain preliminary enquiries were made in January last and on the basis of the information furnished, the Government of India have been exploring the possibilities of securing the necessary facilities. Unfortunately, it has been found that little progress can be made unless, in the case of each candidate, definite information is available as to his theoretical qualifications, past industrial experience, the specific nature of the training required and also the industry for which this training is required. Unless these particulars are furnished training institutions and firms abroad are not in a position to indicate what facilities can be made available to Indian technicians.

3. The Government of India feel that, though there may be difficulties in the case of special trades, India's requirements in regard to advanced technical training can be met substantially in the United Kingdom and the United States of America. To enable them to take further action in the matter it is necessary to have the names and the full particulars indicated above of any candidates which your Association or any of your associate members consider should be sent abroad for higher technical training. The candidates will in most cases be persons with a University degree in science or engineering or equivalent diploma and at least three years' industrial experience in India. The duration

7. General Education (state Schools or Colleges attended and examinations passed).

8. Technical Education (give particulars of technical schools or colleges attended and examinations passed)

9. Details of Apprenticeship (state the names of workshops or factories where apprenticeship was undergone and the period of apprenticeship).

10. Industrial Experience (state the appointments held from time to time, duration of each appointment, nature of duties performed and pay)

11. Specific nature of Training required and the Industry for which it is needed.**

12. Whether the Employer is willing to meet the expenditure on training.

13. Remarks by the Employer.

***Note* :—The types of training contemplated are given below, but the list is not exhaustive. The Govt. of India would be prepared to explore the possibility of securing facilities for other types of training, if required.

1. Mechanical Engineering.
2. Electrical Engineering.
3. Radio Manufacture.
4. Aeronautical Engineering.
5. Shipbuilding.
6. Marine Engineering.
7. Civil Engineering.
8. Structural Engineering.
9. Metallurgy.
10. Generation of Electricity.
11. Locomotive Construction.
12. Chemical Engineering.
13. Fertilisers.
14. Plastics.
15. Glass.
16. Steel Manufacture.

L1203DofL—300—2-1-45—GIPS

of the training abroad will be about a year but in special cases it may be extended up to two years. As regards the subject for training and its exact nature, the Government of India would be glad to have the suggestions of your Association in each case. The trainees may be required to take refresher courses in theory, but industrial experience in factories and workshops abroad of the kind on which they will be employed on return to India will constitute the most important part of their training.

4. As regards cost, the Government of India have no doubt that in most cases industrial firms or associations will be able to meet the full expenditure on account of their own trainees provided of course facilities are secured through the Government of India in accordance with their requirements. In special cases, *e.g.*, where training is required for new industries or industries whose development is considered desirable in the national interest and the industrial firm or association concerned is unable to bear the full cost, the Govt. of India would be prepared to consider giving financial assistance, where such assistance is necessary in respect of trainees who are sent during the war or within six months thereafter. From enquiries so far made, the cost per annum including passage, fees, allowances, etc., for each trainee deputed to the U. K. is estimated at roughly Rs. 7,500. In the case of the U.S.A. it is estimated at roughly 1800 dollars *plus* the cost of a return passage. These are, however, only tentative figures and the Government of India understand that in the U.S.A. it is possible that trainees may be offered stipends by firms during the period of training. A more detailed estimate of cost will be worked out for each trainee in consultation with the authorities in the U. K. or the U.S.A.

5. I am to request that your Association will kindly assist the Government of India in this matter by obtaining from your associate members a list of their recommendations and the full particulars of each candidate in the enclosed form. I am to add that individual firms are not being addressed as the Government of India hope that your Association and the other Associations to whom this letter is being addressed will be able to furnish the necessary information.

I have the honour to be,

Sir,

Your most obedient servant,

S. LALL,

Joint Secretary to the Government of India.

Letter No.TR-II-1140, dated the 14th December 1944, from J. Lall, Esq. I.C.S., I.A.S., Joint Secretary to the Government of India, Labour Department to all Provincial Governments and Administrations.

Sub: Training abroad of higher technical personnel for post-war industrial development.

I am directed to forward a copy of a letter addressed by the Government of India to all Chambers of Commerce, employers' associations, etc., on the question of training abroad of higher technical personnel for post-war public industrial development. The Provincial Government may desire to send their own technicians for higher training abroad in connection with their normal or post-war schemes and, if so, the Government of India would be glad to arrange the necessary facilities, but the full costs of such training will be borne by the Provincial Government. I am to request that if the Provincial Government have any technicians whom they would wish to send for higher training abroad, their names and other particulars may kindly be communicated as early as possible to this Department in the form attached to the enclosed letter.

of the training abroad will be about a year but in special cases it may be extended up to two years. As regards the subject for training and the exact nature, the Government of India would be glad to have the suggestions of your Association in each case. The trainees may be required to take refresher courses in theory, but industrial experience in factories and workshops abroad of the kind on which they will be employed on return to India will constitute the most important part of their training.

6. As regards cost, the Government of India have no doubt that in most cases individual firms or combinations will be able to meet the full expenditure on account of their own trainees provided of course facilities are secured through the Government of India in accordance with their requirements. In special cases, e.g., where training is required for the future rise of industries whose development is considered essential in the national interest and the industrial firm or combination concerned is unable to bear the full cost, the Government of India would be prepared to consider giving financial assistance, where such assistance is necessary in respect of trainees who are sent during the next few years in the earlier stages thereafter. Such expenses as for sale, the cost per annum including passage, fees, allowances, etc., for each trainee deputed to the U.K. is estimated at roughly Rs.7,500/-. In the case of the U.S.A. it is estimated at roughly 1000 dollars plus the cost of return passage. These are, however, only tentative figures and the Government of India welcome all that in the U.K. it is possible that training may be offered cheaply by firms during the period of training more favourable estimate of cost will be worked out for each trainee separately in which the arrangements in the U.K. for the

U.S.A. as regards their own trainees will mainly assist the Government of India in the U.S.A. by obtaining from your members the full particulars

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

General and Revenue Secretariat,

Dated Bangalore, ...

No.

FROM

The Secretary to the Government of His Highness the Maharaja of Mysore,

Development Department.

To

SUBJECT: Postwar Industrial Development - training abroad of higher technical personnel.

Sir,

I am directed to forward herewith a copy of letter No. M.F.391/43-Pol dated 20th January 1945 and its enclosures, from the Residency, on the above subject and to state that it is desirable to xxxx take advantage of the offer. I am to request you, therefore, to be so good as to forward your recommendation in the matter, through the Secretary, Board of Management for Industrial Concerns (Government Soap Factory Buildings), Bangalore, for the consideration of Government.

I have the honor to be,
Sir,
Your most obedient servant,

Secretary to Government,
Development Department.

Dr 393-44-2 4578

Office of the Convenor,
Board of Management of Industrial
Concerns, Bangalore,

No. 171

31st January, 1945

4307

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Development Department,
Public Offices,
Bangalore.

Sir,

Training of Technicians abroad.

I have the honour to note below for the information of Government and orders, a resolution passed by the Board of Management of Industrial Concerns at their meeting held on the 26th instant in regard to the above subject, which is self-explanatory.

"23. Training of Technicians abroad:

The Board understood that under the post-war development schemes under contemplation, it is under active consideration of the Government of India to send a contingent of trainees from each province in British India to foreign countries at Government cost for being trained in various industries.

The Board consider that it would be an advantage if the State can also arrange through the Government of India, to get about 50 graduates per year, for a period of 5 years, for being trained in Engineering (Civil, Mechanical, Electrical, Chemical and Metallurgical), Public Health, Commerce, Trade and Banking, etc., abroad for being absorbed after successful training in the various industries and other institutions in the State, existing or expected to come into existence in the near future; the expenditure in this behalf being met from the Development Fund. In this connection, the co-operation of the Joint Stock Companies in the State may also be invited to take part in the scheme and share the expenses. If the scheme meets with the approval of Government, after ascertaining the details of the scheme from the Government of India, a Committee may be appointed for selecting the best candidates for deputation, after a preliminary training for three months in the State Industries, if necessary."

734 - 7/2

I have the honour to be,
Sir,
Your most obedient servant,

Thyagarajan
Convenor,
Board of Management
of Industrial Concerns.

5th February 1945.

To

Pradhanasiromani
M. Madhava Rau, B.A., B.L., C.I.E.,
Dewan of Mysore, Old Public Offices,
B A N G A L O R E.

Dear Sir,

Mr. S. Laxmipathy Sastry, M.Sc., my son, had submitted an application to you to kindly confer a foreign scholarship on him. But no favourable reply was received from the Government. He is continuing to work in the Indian Institute of Science as a research scholar. He has had a brilliant academic career and has undergone a full course of in Chemical Engineering at the Indian Institute of Science. He had unique opportunities of working one of the factories of the Bengal Chemical & Pharmaceutical Works Ltd., Calcutta.

Government of India are making arrangements to depute 500 students to foreign countries for advanced training. An A.P.I. message appearing in the Hindu of January, 30, 1945, states as follows:-

> "It should be emphasized that the arrangements set out above apply only to British Indian subjects and not to subjects of Indian States. It is understood that a number of Indian States contemplate making similar arrangements ...."

It is but natural for me to assume that the Government of Mysore have this subject before them and will be taking action at an early date. You are personally aware of the services I have rendered to the State of Mysore while I was in service. Even after retirement, I am utilising every opportunity to further help the industrial advancement of the State of Mysore. I am approaching you once again

to press the claims of my son for the award of a scholarship for Post-Graduate training in one of the foreign countries, -- England or America -- and I hope this prayer of mine will be favourably considered.

I enclose herewith copies of testimonials given to my son by various professors and others during his academic career.

Thanking you in anticipation, with very best respects,

I remain,
Your obedient servant,

(C. C. CASTRY).

Enc:

PRESIDENCY COLLEGE, MADRAS.
17th December 1942.

I have much pleasure in giving this testimonial to Mr. S. Lakshmipathy Sastry, B.Sc.(Hons)., one of my old students at this College. He came to the Presidency College in the autumn of 1937, after finishing the Intermediate course of the Mysore University at the Central College, Bangalore. He joined the Honours class in Chemistry, Physics being his subsidiary subject, and after the normal course of three years, he graduated in August 1940 with a first class (second rank) in Chemistry Honours in that year. For his special subject, he offered Electro-chemistry, in which he carried out a number of interesting experiments. He was a prominent member of the College Chemical Society, and took an active part in the debates and also in the Annual Chemical Exhibitions held during the period of his studies here. He was a keen sportsman and played cricket for the College XI on several occasions. Mr. Sastry impressed me with his careful experimentation, and his enthusiasm for chemical studies, and he was, in my opinion, the most energetic worker amongst his class-mates during these years.

After leaving us, Mr. Sastry entered the Indian Institute of Science, Bangalore, and underwent a course in Chemical Engineering there, which included a period of practical training in the factory of the Bengal Chemical and Pharmaceutical Works Ltd., Calcutta, for four months. At present, he is conducting his researches in the General Chemistry Department of the Indian Institute of Science, Bangalore, his special subjects being the synthesis of liquid hydrocarbons from carbon monoxide and hydrogen. I consider Mr. Sastry, to be one of the best equipped students both in Pure and Applied Chemistry, and I am confident that with his knowledge and training, he would be able to render an excellent account of himself in any capacity in which he might be employed. Mr. Sastry has an excellent personality and his character and conduct in the College have always been irreproachable.

Department of Pure & Applied Chemistry,

9th June 1944.

This is to certify that Mr. S.L. Sastry, B.Sc., joined our department in July 1940 and completed one year's course in Chemical Engineering before taking up research on Synthesis of hydrocarbons for which he has been awarded the M.Sc. degree of Madras University.

I came in intimate contact with Mr. Sastry during the course of his research. I was deeply impressed by his hard work, patience and perseverance, skill in designing and constructing his apparatus, and above all by his own initiative and spirit of independence. He has carried out his research with very little guidance from others and has shown considerable theoretical knowledge in interpreting the results of his experiments.

Mr. Sastry has a very pleasent personality and is very popular with his colleagues. It gives me great pleasure to record my appreciation of his work with which I was associated and to wish him every success in scientific and industrial field.

Department of Pure and
Applied Chemistry,

Ref:G.C.2563/26. 19th January 1945.

Mr. S. Lakshmipathy Sastry, M.Sc., joined the Institute in 1940. He came to us with an excellent academic record from the Madras University having obtained a first class honours degree, and I am happy to be in a position to mention that he has fully satisfied all our expectations.

Mr. Sastry completed satisfactorily a course of training in Chemical Engineering in this Institute and later acquired very good practical experience in the works of the Bengal Chemical and Pharmaceutical Works Ltd. He gained valuable first hand knowledge of the manufacture of chemicals, especially those involving the utilisation of natural deposits such as bauxite and magnesite.

Mr. Sastry has carried out some important investigations concerning the utilisation of water gas for synthesis of liquid hydrocarbons. This work was carried out with characteristic thoroughness as a consequence of which the ~~Madras~~ University of Madras conferred on him the M.Sc. degree. He is now engaged on important researches relating to the synthesis of methyl alcohol and I have no doubt that he will soon obtain some valuable results. I have formed the highest opinion of Mr. Sastry both as a chemist and as a man. He isavery tidy worker and he plans and arranges his work and procedure in such a way as to ensure that the results obtained are reliable and accurate.

I understand that the Geological Department are in need of a chemist. I wish to recommend Mr. Sastry most cordially as I feel that it will be very difficult to find a more suitable young man than him to fill the post.

Training abroad of higher technical personnel for postwar industrial development.

In continuation of this Department letter No. TRC.II-1140 dated the 12th December 1944, on the above subject, I am directed to forward a copy of a further letter addressed by the Government of India to all Chambers of Commerce, Employers' Association etc. Attention is particularly drawn to the last paragraph of the enclosed letter which fixes the last date by which recommendations should reach this Department. The Government of India consider it important that the first batch of candidates should reach the United Kingdom not later than June 1945 and hope that the Provincial Governments will be able to send their recommendations before the 10th March 1945. If necessary, they may review their needs more fully later and send supplementary recommendations which will be considered when it is desired to send further batches for training.

- - -

Copy of letter No. TRC-II-1140, dated the 7th February 1945, from the Government of India, Department of Labour, to the Employers' Federation of India, Bombay etc.

Training abroad of higher technical personnel for post-war industrial development.

- - -

In continuation of this Department letter No. TRC-II-1140 dated the 12th December 1944 on the subject noted above, the Government of India are glad to inform you that encouraging replies have been received from both the United Kingdom and the United States of America to the preliminary inquiries which were made regarding the training of higher technical personnel in those countries. The United Kingdom authorities desire that the first batch of trainees should reach the United Kingdom for training in June 1945. The United States of America authorities wish the trainees to reach there in January 1946, but an inquiry is being made if individual candidates cannot be admitted earlier.

2. It is emphasised by both the United Kingdom and United States of America authorities that the selection of the first batch of candidates should be made with the greatest care as good performance on their part will facilitate future admission. The Government of India fully endorse this view and hope that the names of only such candidates will be forwarded as can be depended on to benefit from training abroad. To help the Government of India in making a final selection, it is important that full particulars of the educational and industrial back-ground of each candidate should be furnished. The nature and purpose of the training desired should be clearly indicated in the prescribed form.

3. It has been ascertained that the approximate living cost per annum of each trainee sent to the United States of America will be about 1,000 dollars. This does not include institutional fee where payable. The Massachusetts Institute of Technology, Boston charges a fee of 600 dollars for two terms. Training in the United States of America will, generally speaking, be for one year in a college and one year with an industrial concern. These periods will of course, vary according to the back-ground and experience of each trainee.

4. The Government of India have decided to send the first batch of candidates to the United Kingdom so as to reach there not later than June 1945. Recommendations for training in the United Kingdom should therefore reach this Department before the 10th March 1945. Recommendations received after this date will be kept for later consideration when it is decided to send further batches. Recommendations for training in the United States of America should also reach this Department before the end of February 1945, so that it may be possible to complete the negotiations, now in progress with the authorities in that country.

Dear Sir,

With reference to a recent publication by the Government of India advising the various Governments, to recommend candidates who have put in three years Industrial experience after taking a Technical degree in India, to be sent abroad for furthur technical training, I request you to register my name for the same.

Regarding my qualifications I wish to state that I have passed the B.E.Degree Exam. of the Mysore University in the year 1938. I have had nearly five years Industrial experience in India. On hearing from you as to the course I have to take in getting myself registered, I shall send you, with pleasure, the details of my qualifications etc.

I hope to be favoured with a reply.

Yours Sincerely,
Rajarao

To

The Chief Secretary to The
Government of Mysore.
Bangalore.

Dear Sir,

In response to the advertisement by the Central Government inviting applications from candidates who are desirous of proceeding overseas for higher Technical Training, I request you to register my name for the same, as I am a subject of the Mysore state.

Regarding my qualifications, I wish to state that I am a graduate of the University of Mysore, having passed the B.E. Degree Examination in Mechanical Engineering in the year 1938. I have undergone Practical Training in Mysore state Railway workshops and Vani Vilas Water Works Mysore Govt. I was entertained in the Mysore Govt. P.W.D. Tunnel works and I remained there for a Period of nearly 1½ years in the erection and maintanence of the machinery connected with the Construction of the Tunnel. I have put in 4 years of Industrial experience in the Match Industry, being in a responsible position in the Western India Match Co., Ltd, at their Madras Factory. I was in Complete charge of a Department during the above said Period, being responsible for the production

P.T.O

from That Department dealing with a fairly large number of Labourers.

I should be glad if I could get higher Training in The Same Industry abroad. As it is not included in The list published by The Central Government at present. I wish to state That I am desirous of having higher Training in Mechanical Engineering or if you Consider that I should select any Industry That may be helpful. I wish to suggest That my name may be included in the Glass Industry.

Any other information, if required, will be Submitted by me with pleasure.

In Case it is desired That I should have an interview with you in This Connection, I shall do so on hearing from you.

May I have the favour of a reply from you to the address given in this letter!

I remain,

Yours faithfully,

Rajaba

A BRIEF RECORD OF QUALIFICATIONS, EXPERIENCE ETC.

1.	NAME:-	...	R. Raja Rao.
2.	AGE:-	...	Twentynine years.
3.	QUALIFICATIONS:		
	a. Academic:-	...	Passed the Intermediate Examination in Science of the University of Mysore in Second Class, the optional subjects being Physics, Chemistry, Mathematics & Geology.
	b. Technical:-	...	Passed the B.E.Degree Examination in Mechl.Engineering of the University of Mysore in the year 1936. The course also includes Electrical Engineering (AC & DC Machinery Motors, Transformers, Surveying etc.)
4.	PRACTICAL TRAINING:-	...	(1) <u>During the College course:-</u> a. Two years in Carpentry, Smithy/ Foundry and Fitters Shops. b. Two years in Machine Shop, Electrical & Mechanical Laboratory. (2) <u>After the College course:-</u> a. Nearly six months in the Mysore State Ry.Central Workshops in the Loco Erection & Lifting Branch. b. Nearly nine months in the Krishna Vilas Water Works, Govt. of Mysore, P.W.D., in the office and field work connected with the preparation of Water Supply Projects and supervision of their execution.
5.	SUBSEQUENT CAREER:-	...	For about an year and a half in the Irwin Canal Shimsha Branch Tunnel Works, P.W.D., Govt. of Mysore, in the erection of Tunnel Machinery, viz. 200 H.P.Air Compressor, Pumps, Pipe Lines, Drill-Sharpener etc. and on the maintenance of the same and Tunnel Boring Loyner Machines etc. for the construction of the abovesaid Pressure Irrigation Tunnel which is nearly 1,400 ft. long.
6.	PRESENT:-	...	Employed in The Western India Match Co. Ltd. For an year and a quarter worked on the conversion of the machines and now in charge of a Department in the same Factory.

Dated 28-2-1945

Dr Sir

To W/C V. Vedavyasachar Esq. B.A., C.I.E.
Chief Secretary to Govt of Mysore
Bangalore.

Dear Sir,

In Connection with the Scheme of sending Technically experienced & qualified Candidate for higher Technical training abroad, I had addressed two letters to you one by ord. post & other by Regd Post A/C. Due I regret to state that I have not received any reply.

Mysoreans, having Come out of Mysore and been scattered here & there, are always in the hope that the Mysore Government will Support in times of need. Though I had

made repeated requests, should there not be a response or even out of Courtesy!

Of late, I have learnt through the Press That the Mysore Government have programmed to send as many 20 students annually abroad for higher Technical Training.

Such being the circumstances. I again request you to register & consider my application for the same.

Withthe the previous letter dtd 8.6.64 I have sent a copy of my bio-data & qualifications etc. In case it is again required I shall send the same with pleasure.

I remain—

Yours Sincerely

B. L. Rao.

To

The Chief Secretary to
the Government of Mysore,
Bangalore.

Dear Sir,

In response to the advertisement by the Central Govt. inviting applications from Candidates who are desirous of proceeding abroad for higher Technical Training, I request you to register my name for the same.

Regarding my qualifications & experiences, I am herewith enclosing a brief record of the particulars I have put in nearly $5\frac{1}{2}$ years of Industrial Experience in India after the Practical Training in the Mysore Railway Workshops & Vani Vilas Watch Works. Out of the $5\frac{1}{2}$ years, I have had 4 years

Experience in the Motor Industry has been in a responsible position in the Western India Motor Co. Ltd as their Madras factory I was in-Complete charge of a department during the Overseas Period, being responsible for the production from that department dealing with a fairly large number of Workmen. I should be glad if I could get higher training in the same Industry abroad. As it is not included in the list published, I wish to state that I am desirous of having higher training in Mechanical Engineering or if any industry is to be selected, I wish to go for Glass manufacture, only as an alternative.

Any other information, if required it be submitted with pleasure.

In case it is desired that I should have an interview

TECHNICAL TRAINING ABROAD

GOVT. OF INDIA'S SCHEME

KARACHI, Dec. 19.

It is learnt that the Central Government have asked the Government of Sind to suggest the names of students who can go abroad to the United Kingdom and U.S.A. for advanced studies in scientific subjects combined with some practical training. About 700 boys will be sent from all over India and their expenses will be shared equally between the Central Government and the Provincial Governments.

It is understood that the Government of Sind are preparing a list of students who will be sent abroad, specially to have training in labour welfare work.—A.P.I.

Respected Sir,

I beg to submit that I am a Mysorean by birth belonging to a respectable Muslim family of high social status, the members of which have served the State in various capacities loyally and with distinction. My father Mr. Mohamed Peer was a Daroga in the Amrith Mahal Department and he died while in service.

I passed the B.Sc.degree examination from the Mysore University and have undergone some spcial training in Chemistry in the Indian Institute of Science, Bangalore. At present I am working with Messrs. The Mysore Sugar Co. as a Chemist.

I am given to understand that the Government of India and the Provincial Governments intend deputing students abraod for technical and scientific education and for practical training (vide. Notification in the 'Hindu' dated 21st. December '44 enclosed herewith for kind perusal).

I humbly request that I may be kindly recommended for such a deputation for advanced studies in scientific subjects and practical training from the Government of Mysore, if they are also deputing some students in this connection, or to the Government of India, in view of my family considerations, qualification and present technical and practical expeiences.

I wish to specialise in Sugar and Alcohol Industries with particular reference to the latter which is a very

p.t.o.

promising and flourishing Industry in view of the expansion of the Power Alcohol Schemes and Chemical Industries in the post-war reconstruction all over India .

I earnestly hope that my request will be given due consideration and favourably complied with.

I have herewith submitted copies of some testimonials for kind perusal .

Thanking you,

I beg to remain,
Respected Sir,
Your most obedient servant,

MANDYA.

Shafiq-Ul-Mulk Khan Bahadur
MOHAMMED ABBAS KHAN

Arcot Srinivasachar Road,
Bangalore City.
Dated : 14th.July 1944.

This is to certify that Mr.M.Mohamed Hafeez,B.Sc. of the Mysore University is a Mysorean by birth belonging to a respectable family of high social status of the City of Mysore. His father Mr.Mohamed Peer, the deceased, was a Daroga of Amrith Mahal Department ,who died while he was in service.Mr.Mohamed Hafeez is a promising young man. His conduct and character are exemplary. I shall be glad ,if he secures a responsible position in the service of Mysore Government. I may mention that his deceased father had the unique distinction of studying in the Royal School along with His late lamented Highness Sri Chamarajendra Wadiyar Bahadur.His grandfather by name Mr.Syed Faqruddin of Ambajidurg,Kolar District,was the Regimentdar of the Mysore Lancers.and his uncle Mr. Syed Hafiz Saheb Bahadur O.B.E. was also a Regimentdar of the Mysore Lancers.Both of them served the Government with devotion,distinction and loyalty. The late Mr.Mohamed Jaffer , Retired Police Superintendent and Municipal Councillor of the Mysore City, who is well known for his public activities and philanthropy was the uncle of his young man.

THE MYSORE SUGAR COMPANY LTD.

Mandya
Dated :7th.Nov.194 4

This is to certify that Mr.Mohamed Hafeez ,B.Sc. is working in the Mysore Sugar Company Limited , Mandya , for the last two years as a Chemist in the Distillery . He was deputed to the Indian Institute of Science , Bangalore ,for training in the Fermentation Technology. He is a conscientious ,reliable and efficient officer.His work is quite satisfactory and he has carried out some special work also in connection with manufacture of flavouring essences for foreign type liquors . He has made a very good Gin Essence and Rum Essence. I have always found him a very quiet going young man with active habits. He knows how to get on with people very well.

I have every confidence in recommending Mr.Hafeez to anyone in need of his services as a very capable young man who is competent to shoulder responsiblities and who is not afraid of hard work. He deserves every encouragement.

(Sd) John Dalziel
General Manager
THE MYSORE SUGAR COMPANY LTD.

INDIAN INSTITUTE OF SCIENCE

Department of Pure and Applied
Chemistry.
Dated: 30th. May, 1944.

I have pleasure in stating that Mr.M.M.Hafeez.B.Sc..worked in the Section of Fermentation Technology .Indian Institute of Science, for a period of four months . He was deputed by Messrs. The Mysore Sugar Company to acquaint himself with microbiological technique. During the short period of his stay at the Institute.he was able to acquire considerable experience in the handling of microorganisms of industrial importance by hard and devoted work. He familiarised himself with the technique of isolating and maintaining pure cultures of Yeast.

Mr.Hafeez is an enthusiastic young man, capable painstaking and conscientious. He should be given greater opportunities to improve himself as a scientific investigator and I shall watch his career with great interest.

Dear Sir,

In connection with the sending of some students to foreign parts for higher studies, I had written to you, requesting you to let me know the particulars about it, but I did not receive any reply from you. In the 'Hindu' of 25th Feb., it was announced that 20 students would be sent to the foreign countries by the Govt. of Mysore. I beg to submit this as my application for one of those schlorships, and request you to kindly select me for one of them.

I am a Mysorean by birth, and I am a graduate in Electrical Engineering of the College of Engineering, Bangalore, having passed the B.E. Degree examination of 1944. During my College career, I had occasions to pass my examinations in distinction. Since passing the B.E. Degree examn. I have undergone 6 months' practical training in the Mysore Govt. Electrical Department.

Dear Sir,

TECHNICAL TRAINING SCHEME
- ABROAD -

I find in the newspaper HINDU of 25th February, that the Government of Mysore will be having arrangements to depute every year a batch of about 20 graduates of the local University to countries like England and America for undergoing Practical Training in the various branches of Technology. I would be highly obliged if you could let me know the details of the above scheme at your earliest convenience.

Thanking you for an early reply,

Yours faithfully,

N. Narayan

Sir,

I learn that the Government of Mysore is contemplating sending a batch of students to the United Kingdom and the United States of America for advanced Technical training. I request that the following application of mine may kindly be considered when the selection of candidates is done. I have stated in the application the line of work I intend taking up, if selected for higher studies abroad.

T.N. Ramachandra Rao M. Sc.,
Senior Research Assistant,
Section of Fermentation Technology,
Department of General Chemistry,
Indian Institute of Science,
Bangalore.
1st March 1945

I remain,
Yours truly,
T. N. Ramachandra Rao.

831
2/3

Name. T.N. Ramachandra Rao.

Age. 1st Jan. 1915.

Whether Mysorian by birth. Yes.

Place of Birth. Tumkur District.

Qualification.

1. Passed B.Sc., (Hons) degree of the Mysore University in the Year 1939 with Plant Bio-Chemistry and Micro-Chemistry as special subjects and Botany as the main subject.
   Secured the Junior and Senior Lecture prizes of the University Chemical Society.
   Secured the Baba English prize of the University at the degree examination in 1938.
   Passed M.Sc., Degree in Botany in the year 1940.
2. Since 1942 I have been working in the section of Fermentation Technology as a research student under the general guidance of Sir J.C. Ghosh (Head of the ~~xxxxx~~Dept. of General Chemistry). and under the direct guidance of Mr. M.Sreenivasaya B.A., F.I.I.Sc., I have worked on the following probleme relating to the utilisation of industrial Bi-products, wastes and also the agricultural surplus products.
   1. Production of Yeast form Molasses with a view to the development of yeast(industry) as a source of Vitamin Food
   2. Production of Lactic acid from molasses and of Citric acid from sugar.
   3. Also on the general nature of production of Butyl-alcohal and other solvents by Bacterial fermentations.

   For the past 2 years I have been working ~~appointed~~ as a senior ~~assistant~~ Research assistant in charge of the National Collection of Type Cultures

(Bacteria, Fungi, Yeasts) a scheme sponsored by the Council of Scientific and Industrial Research, New Delhi, the first of its kind to be undertaken in India, as it implies a development of Industries like the distillaries, Fermentation products like Yeast rich with Vitamin B complex and Vitamin D, and the development of Anti-Bacterial substances from Fungi.

Line of Future work.

1. In an Industrial and Agricultural place like Mysore the first is the utilisation of waste products like molasses to yield more useful chemicals like alcohols, acids and solvents.
2. The immediate necessity for the development of a well established Yeast industry to supply the nutritional shortages due to ill balanced diet (Vitamin Foods)
3. In times of peace to utilise excess agricultural products like Jawar and potato as a base for development of Butyl alcohal and therefrom the synthesis of Rubber.
4. Production of Acids like Lactic and Citric which are increasingly used in Beverages and modern Fluxes and Plastics.
5. These are a few the various branches of Fermentation Industry, a new line of work, in which field America and England have attained more than their national self sufficiency in production of these fine chemicals which they now largely use for export also. We urgently should develop this industry in India to attain even a small measure of Autarky.

Declaration. I agree to abide by any condition which the Govt. of Mysore may impose during the period of training and after its completion.

To,
The Chief Secretary to the
Government of Mysore,
Bangalore.

Sir,

I learn that the Government of Mysore is contemplating sending a batch of students to the United Kingdom and the United States of America for advanced Technical training. I request that the following application of myne may kindly be considered when the selection of candidates is done. I have stated in the application the line of work I intend taking up, If selected for higher studies abroad.

T.N.Krishnaswamy,B.E.,

Office of the Convenor,
Board of Management
of Industrial Concerns,
Dated, Bangalore, 9th March 1945.

No. 403
Encl. 2 Sets (3 sets each)

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Development Department,
Public Offices, Bangalore.

S i r,

Ref: Correspondence ending with D.O.letter No.D. 5866/I & C 393-44 dated the 5th March, 1945.

Sub: Post-war Development - training of higher technical personnel abroad.

With reference to the above, I have the honour to state as follows:-

This is an important subject and the time given to the Board to offer their recommendations even for the selection of a few is very short. Anyway, they have gone into the question very carefully at four meetings held on the 5th, 6th, 7th and 9th March 1945. Mr. P. R. Balakrishnan, General Manager, Mysore Iron & Steel Works was present at the meetings held on the 7th and 9th instants. The Board interviewed the candidates on the 9th March 1945.

From the Government of India communications enclosed with the Secretariat references, the Board noted that the following points are required to be kept in view in making selection:

1) that the candidates should be in most cases, persons with a University Degree in Science or Engineering or equivalent Diploma and who have had atleast 3 years' industrial experience in India,

2) as emphasised by the Government of U.S.A. and the United Kingdom that the selection of the first batch of candidates should be made with the greatest care as good performance on their part will facilitate future admissions,

3) that the technicians on their return to India should be capable of developing, planning, organising various branches of

of industry according to the needs of the programme in future industrial development.

4) that the final selection rests with the Government of India for which full educational and industrial background of each candidate and the nature of training required should be furnished to them.

5) that the trainees may be required to take refresher courses in theory,

6) that the duration of the training abroad will be about a year but in special cases, may be extended up to 2 years.

7) that the cost of training has to be borne by the State or by the firms or institutions from which the candidates are deputed. The cost of training in both the countries is given under:

i) Cost of training in the United Kingdom ~~(approximate)~~ including passage, fees, allowances, etc., is estimated at Rs.7,500/-

& ii) Cost of training in U.S.A.

cost of living ...	...	£ 1,000 per annum
f e e s. ...	...	£ 600 for 2 terms,
return passage. ...	...	£ 900

	Total:	£ 2,500/- or
		Rs. 7,500/- or Rs.12,000/-
		for 2 years.
		-----

8) that in certain circumstances, the Government of India would give financial assistance on this account if they consider it necessary. This may not apply to Mysore.

From the conditions stipulated above, the Board felt that it would be an advantage if the State could send officers in charge of industrial concerns and Post-war developments. As the State could ill-afford at this juncture to spare such officers, they have examined the cases of other members of the technical and executive staff in the several industrial concerns in the State, either owned by Government, or aided, for deputation. As all our industries are small and the number of higher technical personnel employed in the concerns is hardly sufficient to carry on the daily operations the scope for selection now is, therefore, restricted. The

The Board have also interviewed some suitable other applicants for selection.

The Board have not before them as yet a list of big industries that are likely to be taken up immediately or after the war, in the State. To work the existing concerns efficiently and also to undertake the schemes that may come under the Post-war development schemes, a large number of young graduates will have to be carefully selected and given training in the industries in the State for some time. Such of them among these that show an aptitude for higher training abroad, may be deputed in the subsequent batches. The policy of Government on the question of post-war development should be decided soon. When this is received, a comprehensive scheme for training could be prepared and submitted for their approval.

Out of the preliminary selection, 34 candidates from the Government and aided concerns, the Board interviewed 30 candidates and selected 16 for training in the United Kingdom in the first batch. A list giving the names of candidates, their qualifications, the concerns in which they are working at present and the subjects in which they may be trained, is submitted herewith for favourable consideration of Government. In the list, the names of the candidates selected from the Government industrial concerns and aided concerns are shown separately. As the Chairman or the Managing Directors of the aided concerns are Government Officers, it is likely that these concerns could be made to agree to meet the cost of training of the employees. If, for any reason, the Board of any Company expressed its unwillingness, the Government may meet the expenses and the candidates absorbed in ~~one of~~ their own concerns or their services lent to others in the State, if they agree to pay the cost of training.

The Board further consider that the trainees should be required to enter into an agreement that in lieu of the State or the concern undertaking to meet the costs of their training, that they should serve the State industries or a department of Government for a

a period not less than 5 years after their return.

I have the honour to be,

Sir,

Your most obedient servant,

Thyagarajan

Respected Sir,

I beg leave to introduce myself to you as a graduate in Mechanical Engineering of the Mysore University, having passed the Examination in 1940.

I am now working as a Liaison Engineer in the Hindustan Aircraft Ltd., and drawing a salary of Rs.303/- per mensem in the grade 230 - 350.

I understand that in connection with Post-War Industrial Planning, the Government of Mysore are sending Engineering Graduates for training in foreign countries. I beg to request that I may be kindly selected for the training.

I have got special experience in actual Workshop Practice, assembly and Design in addition to the training in Mechanical Engineering given in the College. I have been at these jobs in the Factory where I am now working as a Liaison Engineer.

I have earned also several Silver Cups for Photography in the All-India Students' Talents Exhibition and I can assure you, Sir, that I will do justice to the selection if you would kindly select me for the training.

I am the son of the late Mr.V.Gopala Rao, B.A., Retired District Superintendent of Police who has rendered distinguished service to the State and I am also the son-in-law of Mr.B.S.Raghavendra Rao,M.A.(Hon'. Financial Secretary to the Government of Mysore.

I request I may kindly be recommended for being sent for foreign training in the first batch which I understand is moving shortly.

Thanking you, Sir, once again,

I beg to remain, Sir,
Your most obedient servant,

Bangalore,

Dear Sir,

Subject: Post-war Higher Technical Training in abroad.

We have duly received your letter No.D 6468/ICC 5614 dated the 29th ultimo and as desired, we are sending you herewith 3 more copies of the application together with its enclosures for favour of disposal.

In this connection, we have to state that this information was not conveyed to the Public or to the Industrial Concerns concerned in this matter, by any method of publication, while we got this information first through another State. We have, therefore, to request you to convey any such news emanating from the Government of India to the Industrial Concerns concerned in the matter.

Under the circumstances, you will please recommend this application strongly to the Authorities concerned and try to secure admission in the first batch. Any practical experience gained in Foreign Factories will immediately benefit Concerns like Ourselves and hence the necessity for giving preference to a candidate of this nature.

Thanking you in anticipation,

Yours faithfully,

LASCOR

NEW DELHI

YOUR TELEGRAM APRIL THIRD STOP TWO MORE APPLICATIONS SENT TODAY THROUGH RESIDENCY STOP

DEVSEC

Not to be telegraphed.

Bangalore,
12th April 1946.

Post confirmation copy to Joint Secretary to Government of India, Labour Department, New Delhi.

The telegram has been issued

Secretary to Government,
Development Department.

THE MYSORE IRON & STEEL WORKS
BHADRAVATI

20th March 1945.

B/309. **Confidential.**

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Education Department,
Bangalore.

Dear Sir,

Re:-Government of India Scheme for sending students abroad for training in various branches of technology.

Ref:-Your letters No.E.4299-4316-Edn.180-44-4 and No.E.4352-72-Edn.180-64-7 dated 9th and 10th March 1945 respectively.

As desired I send herewith applications received from members of staff who wish to avail themselves of the opportunity of training offered. Of the 13 applications, one is a Diploma-holder from the School of Engineering, Bangalore, 9 are Graduates (ordinary pass) in Science or Engineering and 3 are Honours Graduates. I am of the opinion that the latter alone i.e., the three Honours Graduates need be considered for selection in the present instance. Their names are

1) Mr.B.C.Srinivasa Murthy, B.Sc.(Hons) (Physics) and Certificate of Proficiency in Electro-technology of the Institute of Science, Bangalore.

   Desires training in Advanced Electrical Engineering or Metallurgy with particular reference to the application of electric furnace in Metallurgy.

2) Mr.S.Ranga Iyengar, B.Sc.(Hons) (Chemistry); also Research Scholar, Indian Institute of Science, Bangalore, for one year.

   Desires training in Plastics Industry and allied products.

P.T.O.

3) Mr. T. R. Gopalaswami Iyengar, B.Sc.(Hons) (Chemistry), Mysore University and M.Sc., Benares University.

Desires training in Chemical Engineering.

Training in chemical engineering in general is not of such immediate importance to the Works. There are enough trained chemists and trained operatives to run efficiently the Wood Distillation Bye-product Plant, even with the development of Acetic Acid, Formaldehyde etc., in view. Hence I recommend that the first two names viz., Messrs. B.C.Srinivasa Murthy and S.Ranga Iyengar, may be considered for selection - Mr. B.C.Srinivasa Murthy for training in Electro-metallurgy of Iron and Steel with special reference to manufacture of special steels inclusive of stainless steel, tool steel, ferro-alloys etc., and Mr.S.Ranga Iyengar for training in plastics inclusive of urea-formaldehyde, cellulose acetate, vinyl acetate, phenol-furfural etc.

While Mr.B.C.Srinivasa Murthy is willing to bear a portion of the expenses, Mr.Ranga Iyengar wants full assistance from the Government. I suggest that the latter may be given the full assistance and the former half the expenses.

Mr.Srinivasa Murthy, after training, will continue his service in the Works. Mr.Ranga Iyengar may be absorbed in the plastics concern that is under contemplation.

No one has offered to go entirely at his own cost.

Yours faithfully,
Sd.P.R.Balakrishnan,

General Manager.

Copy forwarded with compliments to the Secretary to Government of Mysore, Development Department, Bangalore.
